

WARRANTY, INSTALLATION AND MAINTENANCE

Stainless-Steel Countertops

Thank you for purchasing one of Custom Fabricators stainless-steel countertops. Here at CFI, we take pride in our manufacturing process, providing customers with products of the highest quality, free from any defects. We are confident that you will be satisfied with your purchase.

Upon receipt of your order, please take care to inspect the products to be sure that they have been made to order, and that there has been no damage during shipping. On your invoice you will find a statement indicating that there is a 5-day window to report any damage you should find. In this unlikely event, please contact us and we will assist you promptly.

Our stainless-steel countertops are made with a type 304 stainless steel, with a number 4, brushed finish. Countertops are guaranteed, under normal usage, for a one-year period from the date of receipt. This warranty is null and void if damage has occurred as a result of mistreatment or non-typical use of the product. All of our stainless-steel products should be received in a shiny and new condition. To maintain that new appearance, we recommend using a stainless-steel cleaner and polish.

On behalf of everyone at Custom Fabricators Inc, thank you for trusting us with your laboratory needs.
